

Mitas is a partner of 2021 Abestone Hard Enduro and Italian Extreme Enduro Championship

Abestone Hard Enduro is a new addition to the FIM Hard Enduro World Championship and will take place in Abestone, Italy, on July 10-11.

On **Saturday**, racers will have to face riding a **mountainous lap** four times with **extreme test at the end of each lap**. The **top 50** riders will qualify for **Sunday's main event** – a three-hour riding across **extreme enduro terrain**.

Italian Extreme Enduro Championship (Campionato Italiano Enduro Estremo) is organised under the umbrella of FMI (Federazione Motociclistica Italiana) and will consist of **five races**, with the first race taking place on 22 May.

Other races are scheduled for June, July, August and November.

Unfortunately, our **main extreme enduro event, Red Bull Erzbergrodeo**, has been **cancelled** due to COVID-19 restrictions, but we are already preparing an amazing project with the Red Bull Erzbergrodeo team.

Mitas Moto Youtube

Let your pit bike become the source of fun in the dirt. Mitas pit cross tyres will make this happen.

Pit cross bike is ideal for young riders and also an amazing motorbike for some super fun rides.

And we must say that this does look like a lot of fun! Who is up for such a ride?

What is the tyre of choice for facing the extreme conditions of Dakar Rally?

Mitas' rider Simon Marčič finished this year's Dakar as 5th in the Original by Motul category and 36th overall. Here is a short overview of the tyres he used in one of the toughest races in the world.

Watch the video where Simon takes us through his 2021 tyre choice.
